

# Breaking Down Barriers

Usdaw has launched a new education and skills programme for Black members.

We are doing this because we need to break down the barriers that stand in the way of their getting involved in the Union.

**Are you, or do you know, of a Black member who has completed their Usdaw rep, H&S rep or ULR training, and would like to broaden their skills and get more active in the Union?**

\*By Black we mean anyone who is at risk of discrimination or racism because of the colour of their skin, including members of mixed heritage.
