

Abuse Is Not Part Of The Job

For Retail Workers

Make sure that you report any incidents of violence or abuse to your employer, the police and your Usdaw rep. Usdaw understands the issues that retail workers face and the more members we have, the stronger our voice is with companies and the Government for better policies and protection.

3 in 4 retail workers have been verbally abused in the last 12 months – 8% have been physically attacked.

Usdaw's Freedom From Fear campaign is built on the testimonies of retail workers like you – tell us about your experiences by scanning the QR code or visit: www.usdaw.org.uk/ffsurvey
