

Usdaw is Campaigning for Fair Play for Working Carers

- **One in three carers has trouble paying utility bills**
- **One in three carers has no savings at all**
- **Seven out of 10 carers worry about money**

Usdaw – Supporting Parents and Carers' Campaign

Dear Member of Parliament

Fair Play for Working Carers

The Government's review of the existing National Carers Strategy will shortly be publishing proposals for consultation. Carers across Britain have high expectations that the review will make a real difference to them. It is vitally important that any proposed changes to rights and benefits are backed up by the necessary resources to deliver them.

Usdaw is looking for significant changes to Carer's Allowance to allow more low-paid working carers access to this important benefit. At present there is little flexibility, with carers losing all of their Allowance when they earn just a few pence over the earnings threshold of £95 per week.

Please support Usdaw's campaign Fair Play for Working Carers by signing the EDM and writing to the Minister.
