SAVE OUR SHOPS

Campaign Petition

To the Government

The retail sector is facing serious difficulties with shops closing and retail workers experiencing job insecurity, low pay and insecure hours.

Shops are an essential part of our local community. Government must take urgent action to Save Our Shops.

The retail workers trade union Usdaw is calling for:

- Economic measures to create a more level playing field between the High Street and online retailing.
- Government action to protect jobs in the retail sector. Retail jobs are real jobs – retail is a key part of the economy providing jobs and income for millions of families.
- Fair pay and job security for retail workers – a minimum wage of £10 per hour, tackle zero-hours and short-hours contracts, investment in skills and training.

I support Usdaw's campaign to Save Our Shops
