Usdaw

Staying Safe Online

Usdaw believes that finding out a bit more about how to protect yourself online and learning a few simple tricks can greatly increase your online security.

In conjunction with Digital Skills Education, the Union has designed this course to teach you to improve your understanding of online security. You'll learn tips on how to stay safe on Social Media, Safeguarding Children Online, how to make a stronger, more memorable password, the dangers of companies losing your data, and best practices to secure your online accounts. Go to: **www.usdaw.org.uk/safeonline** to get started!
