### The **HUSTLE**

Scammers will suggest it is part of a Government initiative, or that it is time for your annual review.

They will claim that their offer is a once in a lifetime opportunity, or that they've found a legal loophole.

They will put you under pressure to sign up quickly, often sending a motorcycle courier for your paperwork.

They will have a very professional looking website because the scammers are good at what they do.

### The **Reality**

#### **THIS IS THE REALITY**

Pension scams are serious. If you fall victim, it's likely that you could lose some, but more than likely all of your pension savings.

The scammers don't tell you that they will take excessive commission costs or fees for dealing with your transfer, sometimes up to one third of your pension pot.

If you receive cash from your pension before you are 55 you are likely to be hit by significant tax charges. HMRC will charge you usually more than half of the value of your pension pot!

Last year it was reported that pension scams amounted to a loss of at least £13 million – the real cost is substantially higher because pension scams ruin lives.
